

Build your network: create resellers

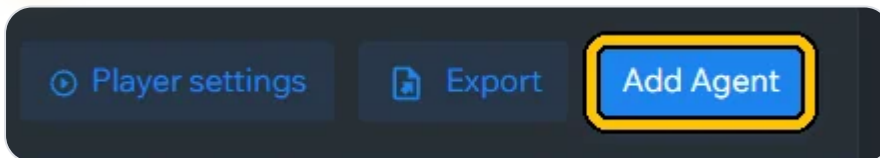

Each reseller gets their own panel, with the slots you give them.

This page: <https://ajuda.solutionsapp.site/en/create-reseller/>

- 1 In the menu, click **Agents**.

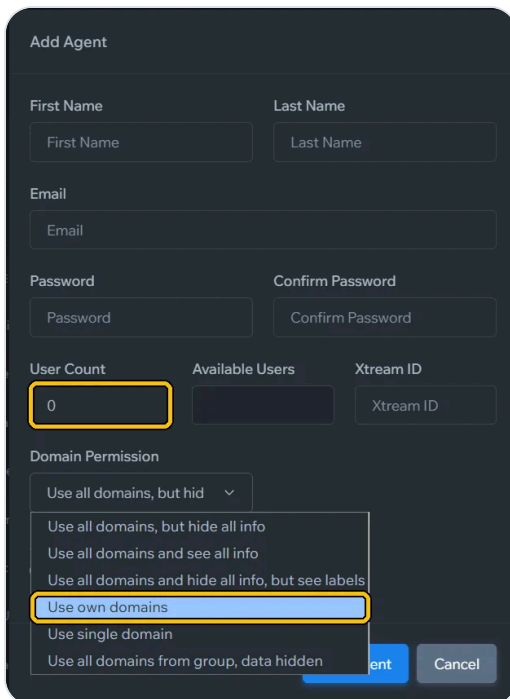

- 2 Click **Add Agent**.

- 3 Fill in the reseller's name, **Email** and **Password**.

4

In **User Count**, set how many customers they can activate. In **Domain Permission**, choose **Use own domains**: each reseller uses their own DNS.

The screenshot shows the 'Add Agent' form with the following fields and values:

- First Name**: First Name
- Last Name**: Last Name
- Email**: Email
- Password**: Password
- Confirm Password**: Confirm Password
- User Count**: 0
- Available Users**: (empty)
- Xtream ID**: Xtream ID
- Domain Permission**: Use own domains

The 'Domain Permission' dropdown menu is open, showing the following options:

- Use all domains, but hid
- Use all domains, but hide all info
- Use all domains and see all info
- Use all domains and hide all info, but see labels
- Use own domains**
- Use single domain
- Use all domains from group, data hidden

The 'Add Agent' button is highlighted in blue.

5

Want them to create resellers too? Turn on **Admin**. Then click **Add Agent**.

Send your new reseller the link to this page: they learn on their own to [create the key](#), [add DNS](#) and [create customers](#).
